

## WHAT IS ACADEMIA FIESTA?

In the digital age, lecturers must provide innovative teaching materials to help students achieve their learning goals. Students also need to create self-study materials for exam preparation. The Centre for Development of Academic Excellence (CDAE) proposes the Teaching and Learning Innovation Competition (Academia Fiesta@USM), to foster creativity in education. This competition encourages USM lecturers and students to design innovative teaching materials and share best practices. It aims to recognize and promote creative and innovative efforts in the academic community.

## WHY ACADEMIA FIESTA?

- Identify T&L products and innovations that can be highlighted at the USM and national levels.
- Cultivate the production of T&L innovations in the design of T&L processes and developing T&L, in line with the mission to produce HEBAT-quality students.
- Share best practices of T&L projects and initiatives.
- Share best practices for creating learning materials.
- Encourage creative, innovative, and inventive ideas and thinking in T&L at USM.
- Address pedagogical challenges through creativity and innovation in T&L materials.
- Recognize academics who have taken proactive steps by developing quality MOOC and micro-credential courses.
